CB23F35: Low-Code Application Development using Zoho Creator

Name: Merlyn Sosa Saju

Register No.: 240701309

Ex. 13: Integration In Zoho

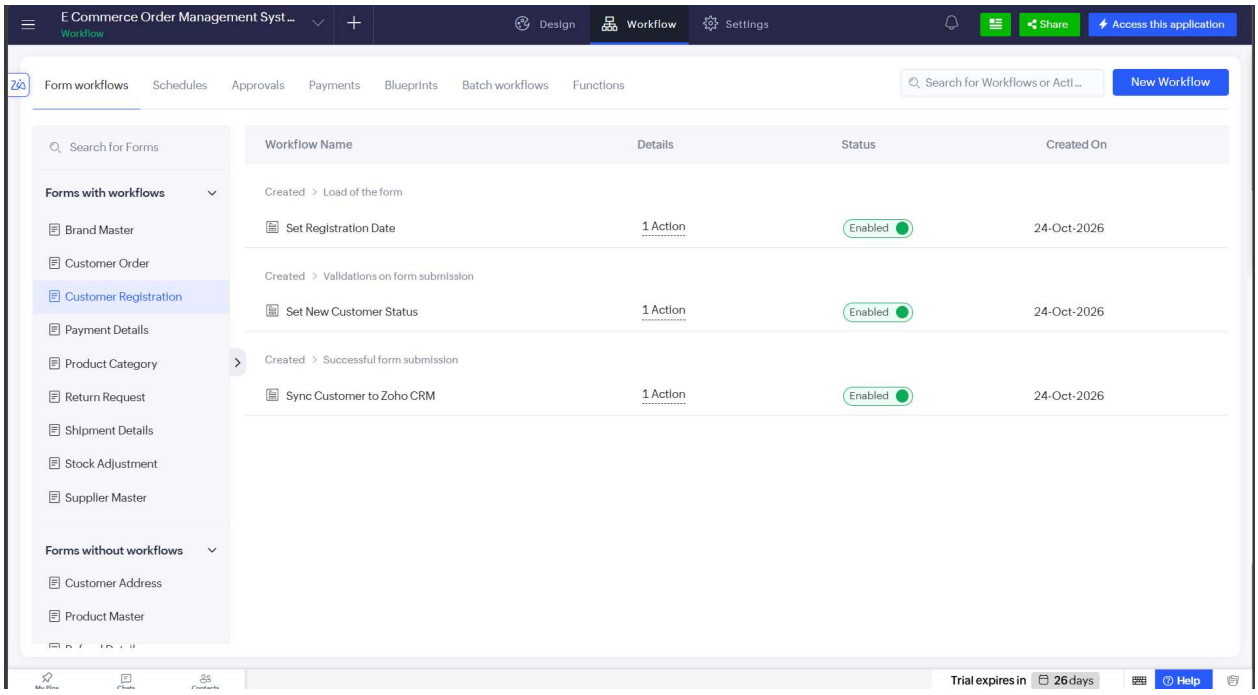

AIM:

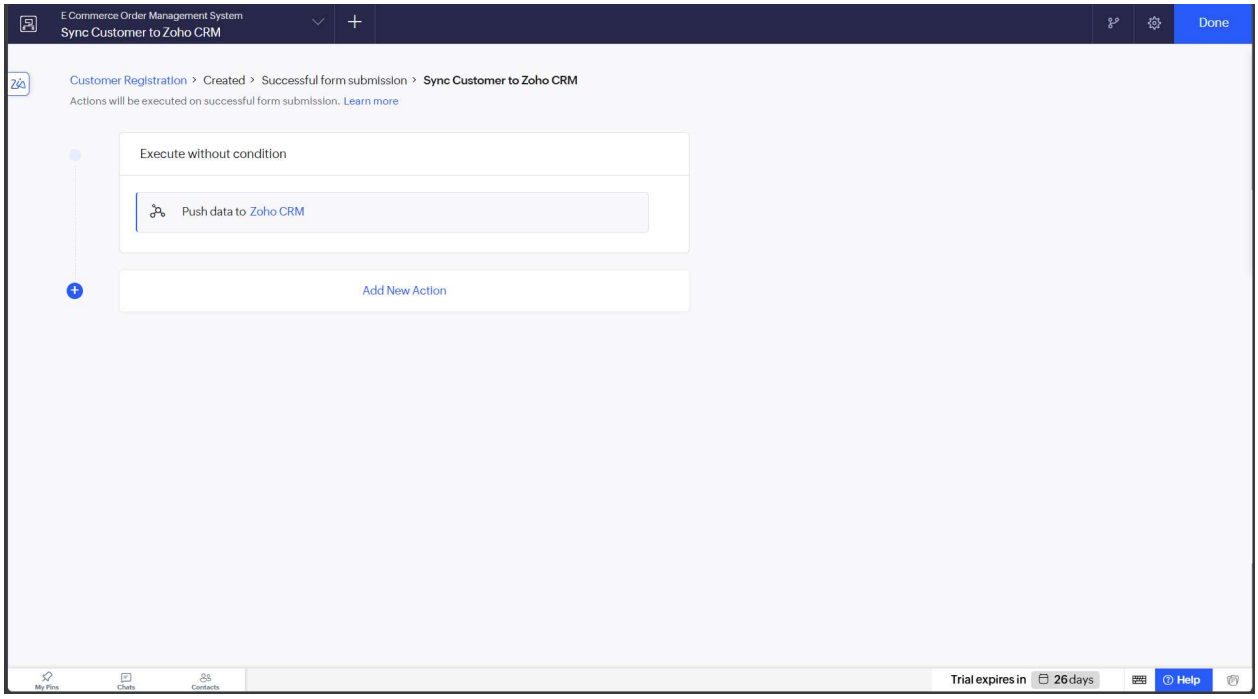

To configure integrations in Zoho Creator to connect the application with external applications and services for seamless data exchange and automation of business processes.

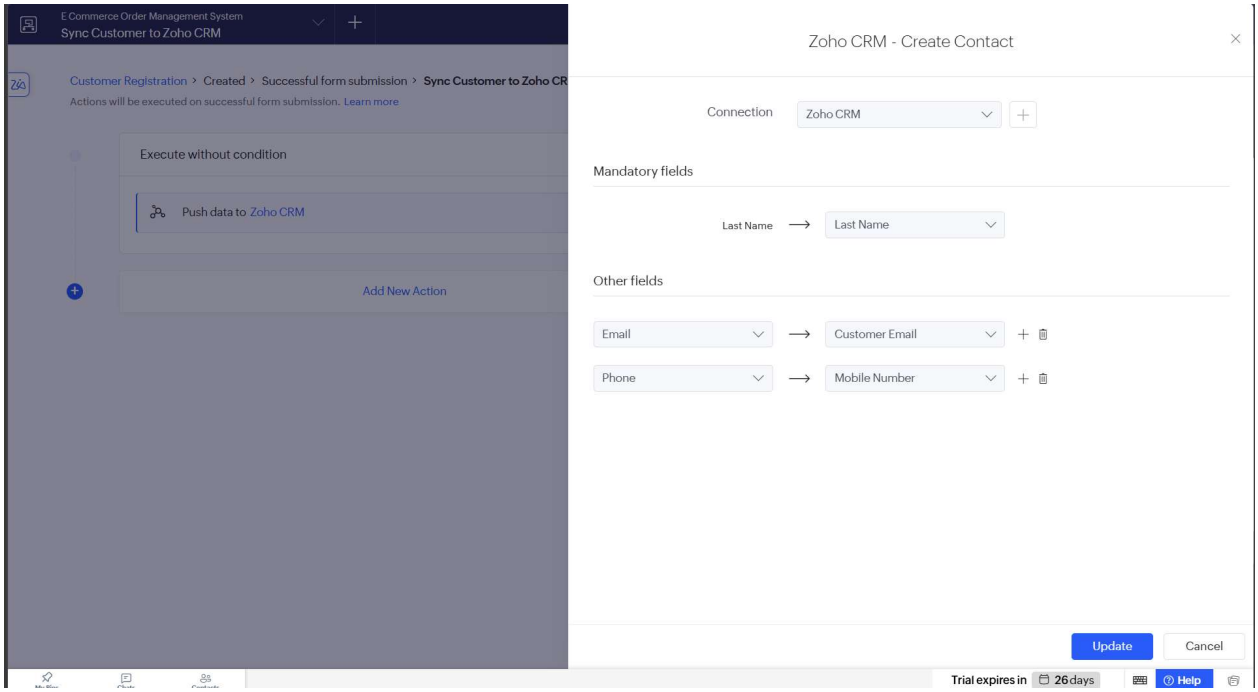

PROCEDURE:

1. Open the application in Zoho Creator and navigate to the Settings section.
2. Select Connections or the relevant integration option to connect with an external application or service.
3. Choose the required service, such as Zoho CRM, Zoho Books, or other supported third-party applications.
4. Configure the necessary authentication details and grant the required permissions to establish the connection.
5. Set up the integration by defining the data to be exchanged and the actions to be performed between the connected applications.
6. Save the configuration and test the integration to verify that data is transferred.

OUTPUT:

RESULT:

Thus, an integration was successfully configured in Zoho Creator to connect with external applications and services, enabling data exchange, task automation, and improved application functionality.
