CB23F35: Low-Code Application Development using Zoho Creator

Name: Merlyn Sosa Saju

Register No.: 240701309

Ex. 10: Schedules

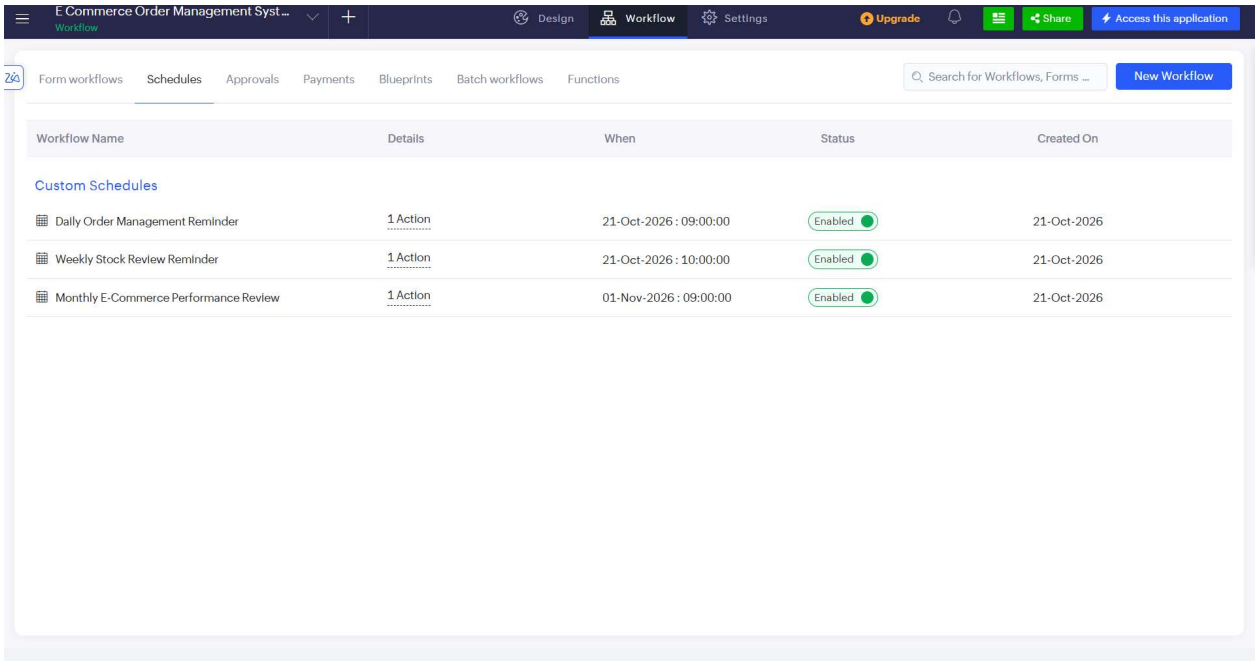

AIM:

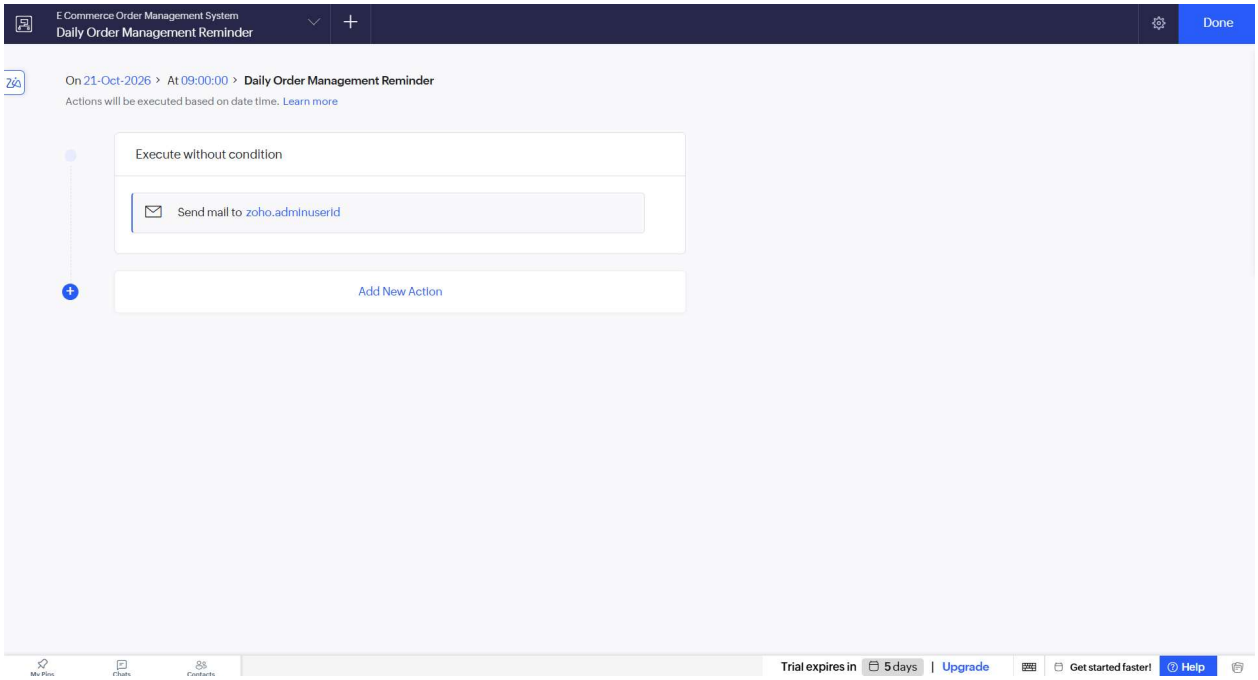

To create and configure schedules in Zoho Creator to automate tasks and execute predefined actions at specific dates, times, or recurring intervals.

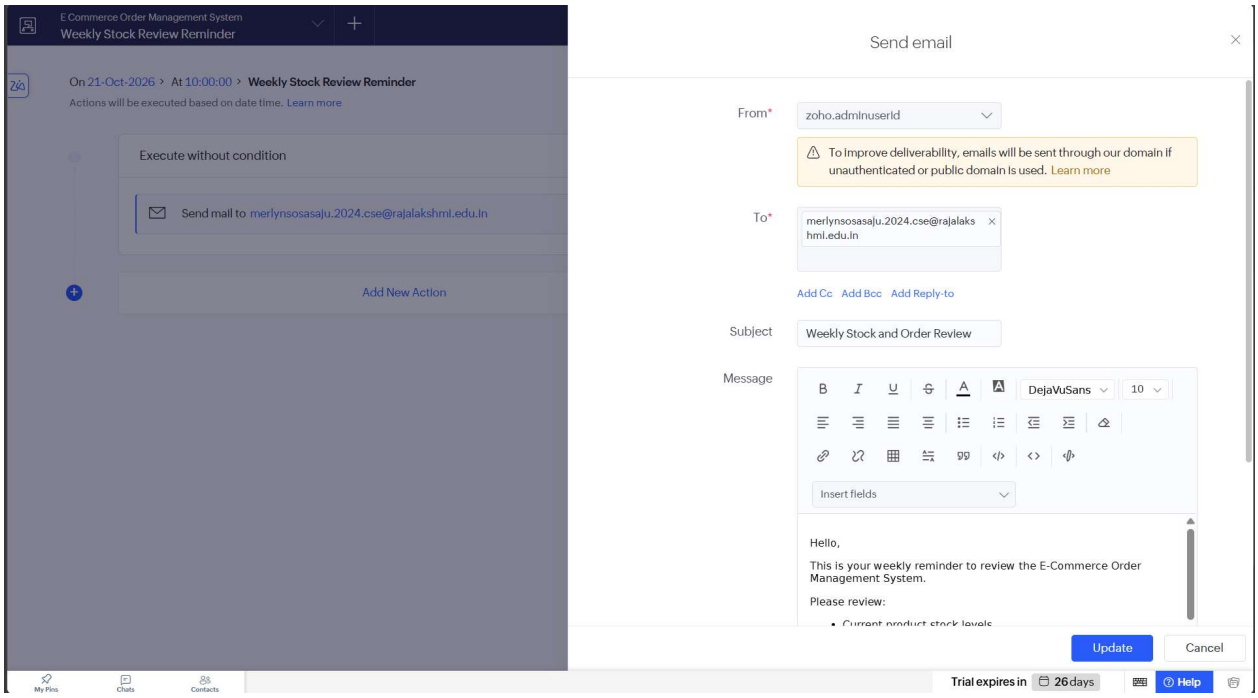

PROCEDURE:

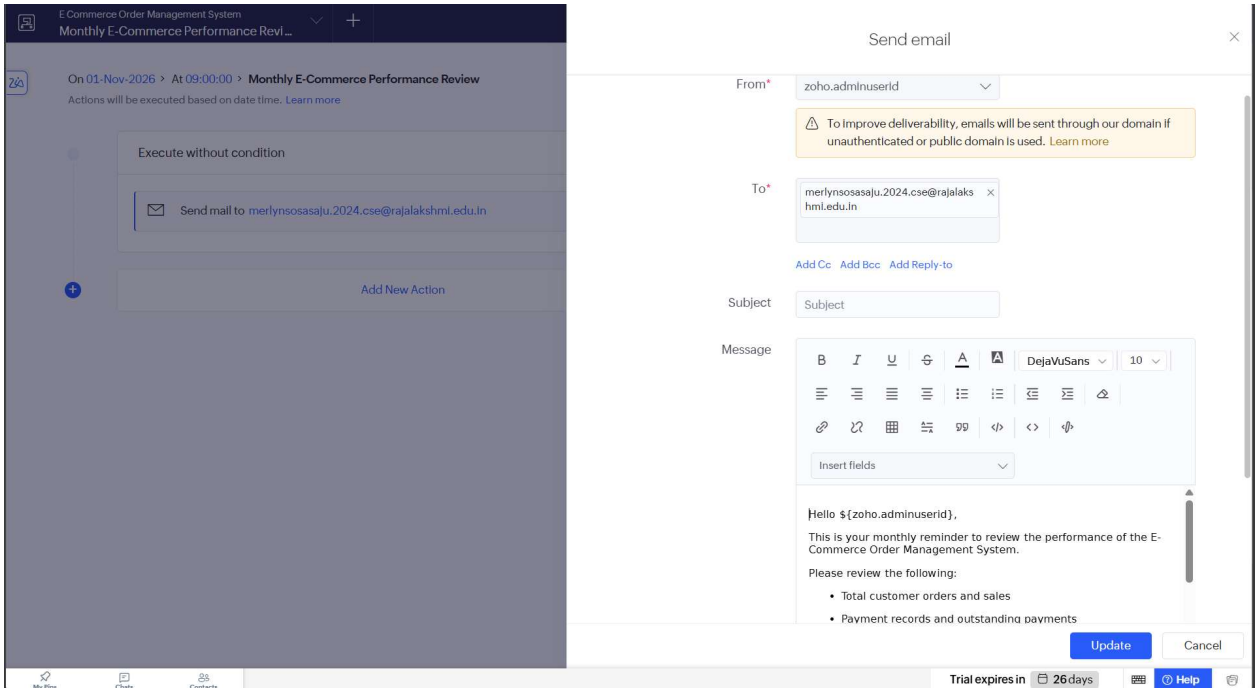

1. Open the application in Zoho Creator and navigate to the Workflows section.
2. Select Schedules and click Create Schedule.
3. Enter the schedule name and configure the required date, time, and frequency.
4. Define the actions to be performed when the schedule is triggered, such as updating records, sending email notifications, or executing Deluge scripts.
5. Configure the necessary conditions and save the schedule.
6. Verify the schedule configuration to ensure that the specified actions are executed at the scheduled time.
